CS1 – Task 2 (SE Process)

Prof. Dr. Jürgen Vogel - juergen.vogel@bfh.ch

Prof. Urs Künzler (urs.kuenzler@bfh.ch)

CS Task 2: SE Process

1. Decide whether your SE Process for implementing the MHC-PMS should be rather plan-driven or agile by collecting pros and cons, considering
 - ▶ your findings from the first analysis
 - ▶ your customer and your users
 - ▶ your team and available time (resources)
 - ▶ ...
2. Based on your decision, design
 - ▶ a process model with concrete activities
 - ▶ for each activity, the goals, tasks, and potential output(s)
 - ▶ the relation among outputs of different activities
 - ▶ the required interaction with your stakeholders (= customer, users, management) and development team (= you) and required interaction

Presentation of results: I2p - Tue 01.03.16, I2q - Fri 04.03.16

- ▶ 5 min per team
- ▶ 10 points for documents, 5 points for presentation

Hints

- ▶ assume that you have sufficient resources to handle the entire project
- ▶ keep your project diary up to date
- ▶ place all work results in your repository under path `... \doc\task02\`
